- THE FUN FILLED PASTIME OF TUMBLING DOMINOES

ACTION GT

THE INCREDIBLE DOMINO RALLY™

The series of THE INCREDIBLE DOMINO RALLY™ sets have been designed to provide hours of fun filled excitement for the entire family.

Let your imagination be your guide and soon you will be creating your own Domino designs to form an infinite variety of layouts.

The parts included in THE INCREDIBLE DOMINO RALLY™ sets are interchangeable. Sets may be used together to test your skill and expand THE INCREDIBLE DOMINO RALLY™ challenge.

Domino set-up hints:

1. For best results, always set-up the Dominoes on a solid flat clean smooth surface.
2. When setting up the Dominoes in a straight line, the space between two Dominoes should not be greater than two thirds of a Domino length apart.
3. When setting up Dominoes in a straight line, be sure that the Dominoes are lined up parallel to each other when looking down on the layout.
4. When forming a curve, the Dominoes will be spaced closer together on the inside of the curve. Remember the tighter the curve, the closer the spacing between Dominoes.
5. To avoid an accidental knock-down of an entire set up, leave out two Dominoes in a row approximately every two feet (60.9cm). This will provide a break in the chain. The Dominoes left out will be placed in the layout last.

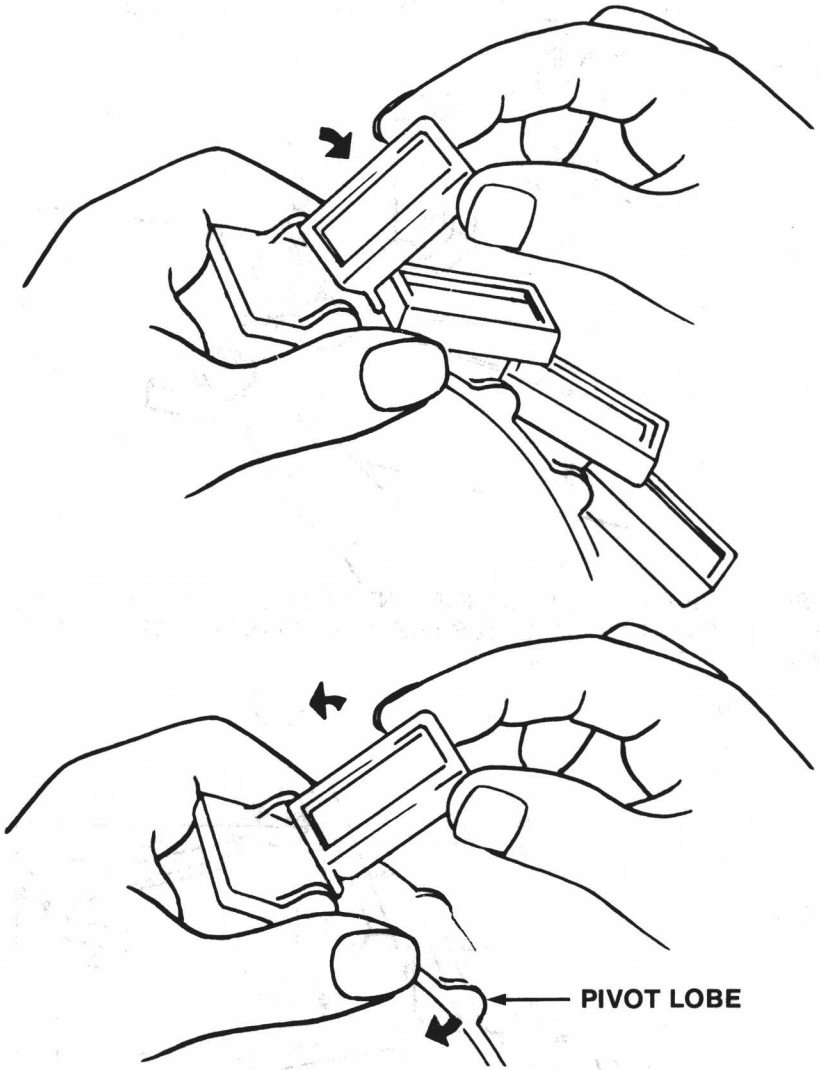
The following pages contain instructions and layout ideas for THE INCREDIBLE DOMINO RALLY™ sets.

For the easy way to set up your Domino Displays you can purchase a Domino Walker which automatically dispenses and sets up Dominoes.

And now for hours of fun filled excitement, proceed on to the layout ideas and "CHALLENGE THE DOMINO CHAMPIONS".

All Action Games and Toys are carefully inspected, but if you find a part missing, or faulty, please write to Customer Service, Action Games & Toys Ltd., Quebec Road, Henley-on-Thames, Oxon.

CURVE AND STRAIGHT TRACK ASSEMBLY



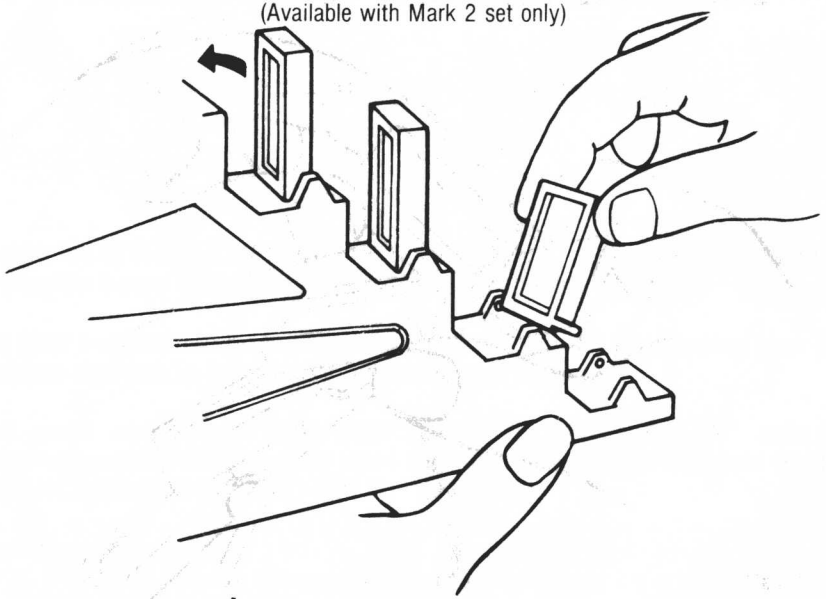
(1) BEFORE ASSEMBLING THE CURVED TRACK DECIDE HOW MANY RIGHT AND LEFT HAND CURVES YOU REQUIRE FOR YOUR LAYOUT.

(2) SNAP THE PIVOTED DOMINOS INTO THE CURVED AND STRAIGHT SECTIONS AS SHOWN. BE SURE THAT THE PIVOT IS FACING THE SAME WAY ON EACH DOMINO IN A TRACK SECTION. THE ARROW INDICATES THE DIRECTION THE DOMINO WILL FALL.

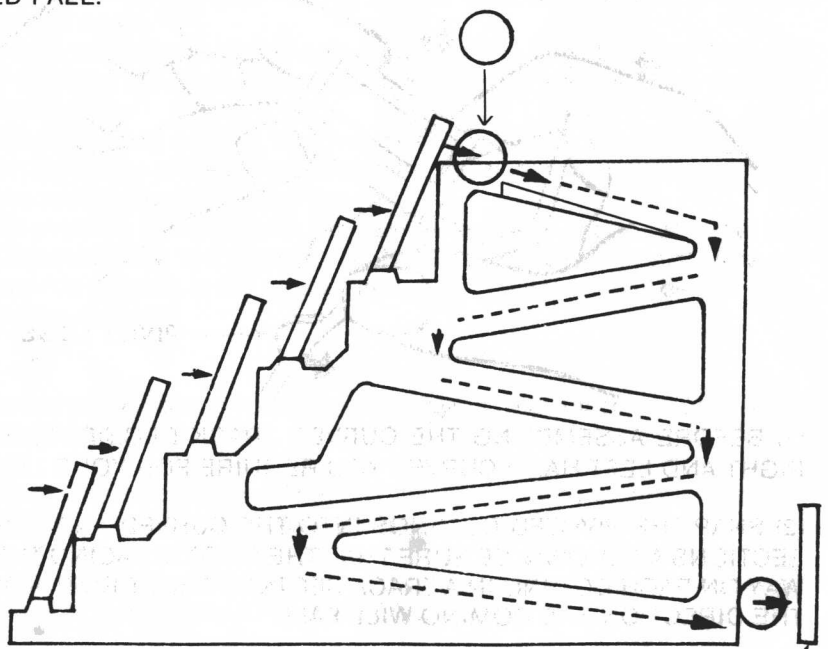
(3) TO REMOVE THE PIVOTED DOMINOES, SLIDE DOMINO TO ONE SIDE OF THE TRACK.
WITH THUMB, PULL IN AN OUTWARD DIRECTION THE PIVOT LOBE AND CAREFULLY REMOVE DOMINO.

STAIR STAND ASSEMBLY

(Available with Mark 2 set only)



(1) SNAP THE PIVOTED DOMINOES INTO THE STAIR STAND AS SHOWN ABOVE. THE ARROW INDICATES THE DIRECTION THAT THE DOMINOES SHOULD FALL.

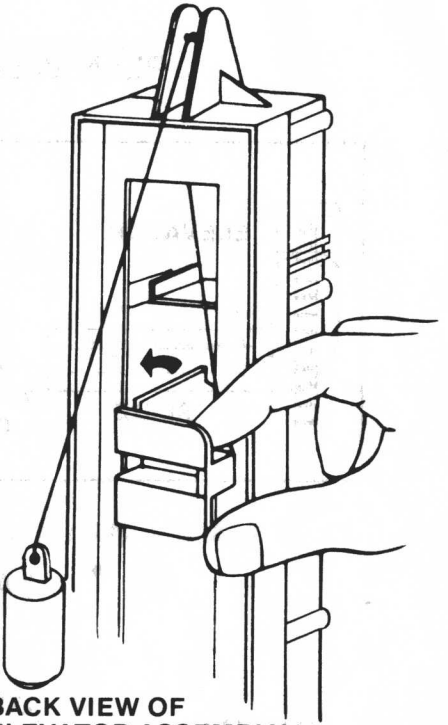


(2) SET THE DOMINO A MAXIMUM OF ¼" (6mm) FROM THE STAIR STAND.

(3) SET DOMINOES UP VERTICALLY. PLACE THE MARBLE IN THE GROOVE AS INDICATED BY THE LIGHTER ARROW.

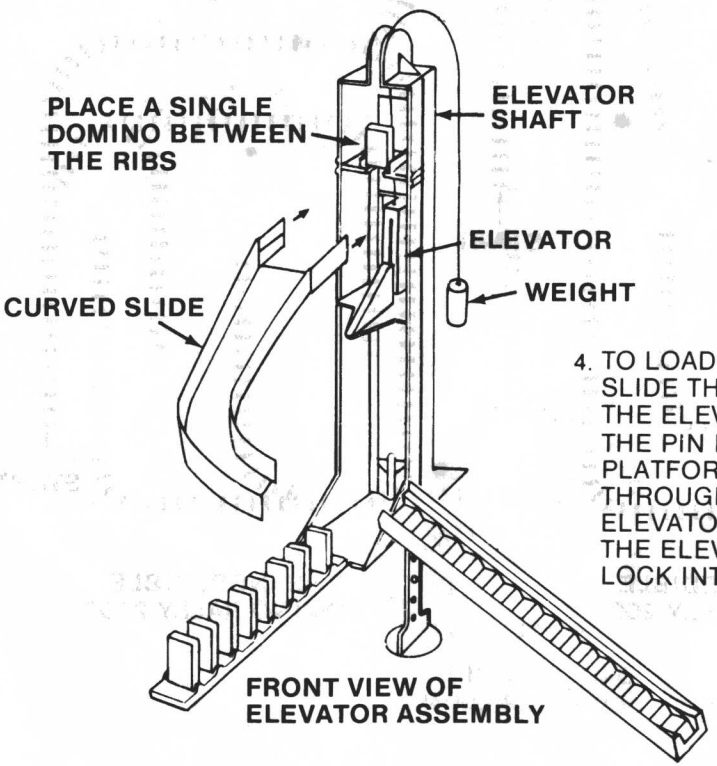
ELEVATOR AND SLIDE ASSEMBLY

1. TIE THE STRING SECURELY TO THE WEIGHT AND ELEVATOR AS SHOWN.
2. FROM THE BACK OF THE ELEVATOR SHAFT, LOOP THE WEIGHT THROUGH THE TOP OF THE ELEVATOR SHAFT AND OVER THE PIN IN THE TOP OF THE ELEVATOR SHAFT.
3. FROM THE BACK OF THE ELEVATOR SHAFT, TURN THE ELEVATOR SIDEWAYS AND POSITION THE ELEVATOR THROUGH THE GUIDE RIBS ON THE ELEVATOR SHAFT. TURN THE ELEVATOR UPRIGHT SO THE VERTICAL GUIDE RIBS ENGAGE THE NOTCHES ON BOTH SIDES OF THE ELEVATOR.



BACK VIEW OF ELEVATOR ASSEMBLY

STRING ATTACHMENT DETAIL



FRONT VIEW OF ELEVATOR ASSEMBLY

4. TO LOAD THE ELEVATOR, SLIDE THE ELEVATOR DOWN THE ELEVATOR SHAFT UNTIL THE PIN IN THE BOTTOM PLATFORM PROTRUDES THROUGH THE HOLE IN THE ELEVATOR, LIGHTLY PUSH THE ELEVATOR FORWARD TO LOCK INTO POSITION.
